

### ALTRAD BELLE **BGPCEL320HX** EXTRA LIGHT-WEIGHT FORWARD COMPACTOR

#### FEATURES & BENEFITS

The **BGPCEL320HX** is designed for compaction in confined areas such as trench applications as well as around gas line and sewer trenches. A patented 8mm thick front base plate is optimized for both speed and maneuverability across soil or asphalt while also featuring a V-shaped water dispenser to ensure even distribution across the bottom of the plate.

- Low Hand Arm Vibration (HAV)
- Accessible lifting points
- Tubular frame
- Strong V-Belt cover
- Narrow, folding handle for storage
- Oil sealed, lubricated bearings

75 ft/min  
12" x 14.3"  
108 lbs

### ALTRAD BELLE **BGPCX13/40H** FORWARD COMBINATION COMPACTOR

#### FEATURES & BENEFITS

The sturdy design and improved speed and frequency of the **BGPCX13/40H** allows you to put this machine to work in the toughest applications, all with a shortened base plate. A true Combination Compactor for use on granular and mixed material with cohesive content.

- Ergonomic 90° Folding Handle
- Low Hand Arm Vibration (HAV) adaptations & handle mountings
- Life lubricated vibration bearings
- Reinforced centrifugal clutch
- Lifting points & lift cage

#### OPTIONS

- Paving Pad Option (**BGOPP/66/DIO**)
- Water Tank Option (**BGOPP/71S/DIO**)
- Wheel Kit Option (**BGOPP/74/DIO**)
