

ALTRAD BELLE **BGPCX20AH** FORWARD COMPACTOR

FEATURES & BENEFITS

Belle's **BGPCX20AH** is built for laying asphalt compounds. The 20" delta plate design is suitable for applications that require precision and access to confined spaces. It also allows for "back healing" making it easy to move without marking thin, layered asphalt.

- Recessed sprinkler bar
- High capacity 2.9 gal water tank
- Easy water tank release system
- Standard wheel kit
- Low 90° folding handle design
- Tough construction

53 ft/min
19.7" x 22.8"
156 lbs

ALTRAD BELLE **BGRPX35/50H** REVERSIBLE PLATE COMPACTOR

FEATURES & BENEFITS

The **BGRPX35/50H** can be used in the harshest of site conditions thanks to its robust design. Equipped with a Honda GX200 Recoil Engine, you can be sure this compactor will deliver a high force that will allow for fast work and deep compaction. The centralized, easily accessible Stop/Start function and the handle mounted Throttle make this machine ideal for hire and rental markets alike!

- Low Hand Arm Vibration (HAV)
- Angled Baseplate
- Integrated wheel kit and foot stand
- Control and fixed handles.
- Removable side panels for easy maintenance
- Handle mounted throttle
- Central lifting point for easy, safe loading

OPTIONS

- Paving Pad
(BGOPP/103/DIO)
