

ALTRAD BELLE **BGRPC45/60H** HEAVY DUTY REVERSIBLE PLATE COMPACTOR

FEATURES & BENEFITS

The vibration frequency and amplitude of the **BGRPC45/60H** are optimized to give the highest compaction on a wide range of materials. Keeping a constant high output force during on-spot compaction, the variable forward and reverse control allows for effective use in all areas. Ensure maximum performance with limited effort thanks to the balanced power to weight ratio.

- Low Hand Arm Vibration (HAV)
- Central lifting point for easy, safe loading
- Extension plate
- Removable side panels for easy maintenance

605 lbs

ALTRAD BELLE **BGRPX59/65H** REVERSIBLE PLATE COMPACTOR

FEATURES & BENEFITS

The robust design of the **BGRPX59/65H** helps increase the life of the compactor by being able to stand up the harshest of site conditions. Built with an angled base plate for excellent gradeability and travel speeds. The high centrifugal force makes for fast work and deep compaction.

- Standard Hour meter included
- Low Hand Arm Vibration (HAV)
- Handle mounted throttle
- Control and fixed handles
- 3" Baseplate Extension included
- Honda GX390 Gas Engine with Cyclone Filter
- Central lifting point for easy, safe loading
- Removable side panels for easy maintenance
