AMT Straight Centrifugal Pedestal pumps are designed for continuous duty OEM, Industrial/Commercial and processing applications including: circulation, chemical processing, liquid transfer, heating and cooling. The high head models are ideal for sprinkler systems and pressure boosting.

These units are available in a variety of construction and seal materials. Pull-from-the-rear design permits easy servicing without disturbing any piping. Pedestals feature CNC machined shafts with sealed ball bearings. Models 4897 and 4906 pedestal drive are epoxy coated and include stainless steel shafts.
