HT Series Pumps

The HT line of pumps features "High Tech" packing and "High Temp" valve design. These premium pumps can withstand temperatures up to 185° F and can run dry for several hours. The nickel plated manifold and valve plugs provide corrosion resistant operation and help reduce damage caused by cavitation. Choose from a variety of different size pumps based on the application.

HT60 Series

Ideal for use in carpet cleaning and other high pressure applications. This pump offers a compact and economical design.

HTS 63 Series

Specifically designed to handle rigorous duty cycles, high temperatures and chemical associated with self-serve car wash applications. Also ideal for carpet cleaning and other high pressure cleaning applications. This pump offers a compact and economical design.

NEW!

Interpump E2 & E3 Series

- New dual lip oil seal - better oil/ water sealing
- New guiding system - optimal sliding of the piston guide assembly reduces friction between the pistons and the seals (longer seal life)
- New optimized outlet valves - better volumetric efficiency
- Inlet valves interchangeable between the 47 and 66 series
- New generation seal package with special piston guiding bush
- New piston fastening system - eliminates the risk of pressure build up inside the piston
- Large diameter oil sight glass
- Oil dipstick with breather

- Oversized connecting rods - reduce specific pressure and better lubrication
- Large oil capacity for better cooling and lubrication
- New dual diameter piston guide - reducing risk of oil leak, extended life of oil seal
- Oversized forged crank shaft and gudgeon pin
- New dust protection chamber between crankcase and manifold
- New solid ceramic piston with dual guide system
- New forged brass manifold
- Can be ordered with built in automatic regulator - specify "H" model number

Series 60 Duplex Plunger Pump

A new line of industrial pressure wash pumps in a compact size.

Special features include:

- Forged brass manifold
- Large sight glass for easy monitoring of oil levels
- 11.4 oz oil capacity for better cooling
- Oversized white bronze connecting rods for increased strength and stability
- Fully anodized crankcase for better protection against the elements
- Oversized ball bearings to allow higher load capabilities, and increased pump life.
- Improved low pressure seals
- White ceramic plungers (99% alumina-ceramic)
- Anti freeze bushing reduces chance of plunger cracking due to freezing
- Positive aligning valve cap.
- 1/8" gauge port
- Optional built in unloader valve

Hydraulic Bell Housing & Flex Coupler - for use with Series 47 & 66

- Kit includes bell housing, flex coupler and mounting hardware
- Easy to Install
- Mounts directly on the pump saving time on installation
- Improved pump life due to proper alignment with hydraulic motor
- Can be used on all Interpump Series 47 and 66
